The relationship between duration and Profit is not concrete enough as well to assume longer duration movies yield more profit than shorter ones. A lot of the profit was gained by the Action Movie genre followed by Adventure movies but they could also be in the same genre as most of the genres are paired with others . Universal Pictures came out as the best production company by profit followed by Paramount Pictures and Walt Disney Pictures following right behind all racking in Billions of Dollars

Steven Spielberg is the Top Movie Director with a profit of 13 billion Dollars followed by Clint Eastwood. This result could also be due to the fact that Steven Spielberg has Directed more

movies that the other.

Duration (mins)
